Md Ashif Reza

Full Stack Developer

Energetic and outcome-oriented Full Stack Developer driven by a dedication to crafting visually engaging, user-friendly, and impactful websites. I aim to harness my versatile technical skills, innovative problem-solving capabilities, and enthusiasm for providing outstanding user experiences. Committed to continuous learning and professional growth.

◆ INTERNSHIPS

Software Developer Intern
CityTech Innovations Pvt. Ltd. (Dakoo) ↗
06/2023 - 12/2023   *Bangalore(Remote)*
Skills: React Native, AWS, Async storage, OTP Login, DynamoDB, AWS API Gateway, S3

◇ Collaborated on the development of "Dakoo The SuperApp" a dynamic hyperlocal e-commerce portal, enhancing my proficiency in **React** and **React Native**.

◇ Designed and deployed **AWS Lambda function** product and store APIs using **AWS API Gateway**, while integrating diverse React Native modules including **navigation** and **animations**.

◇ Enhanced user experience by implementing a **location-based** store display and implemented a comprehensive **global search** feature and selective menu **filtering** for restaurants and products.

TRAINING EXPERIENCE
Web Development Trainee ↗
06/2022 - 03/2023   *Bangalore(Remote)*
Skills: MERN, Search Engine Optimization, DSA, Monitoring, Teamwork, Business Communication

◇ Developed practical skills in **front-end** development, proficiently utilizing **back-end** programming languages and tools like **Node.js**. Experienced in working with databases, including MongoDB.

◇ Created and **optimized** web applications, utilizing front-end library like **ReactJS** and back-end frameworks like **ExpressJS**.

◇ Learned about **best practices**, including user **authentication**, data encryption and **Jwt**, to develop and deploy high-quality and secure web applications.

◇ Secured a place in the **top 5%** of students in the cohort of **100** students, and worked as an **SME**.

◆ ACADEMIC PROJECTS

Reserve Bus-booking Web
AlmaBetter ↗
01/2023 - 02/2023   *Bangalore(Remote)*
Tags: MERN, Location API, Redux-Thunk, Axios, Efficiency, Validation

◇ Developed a comprehensive **bus ticketing platform** enabling users to search, book, and manage tickets.

◇ Implemented **ReactJS** and **TailwindCSS** for front-end development of a **responsive** website and **React-Redux** for state management.

◇ Developed the back-end using **NodeJS** and **MongoDB**, integrating Stripe as the payment gateway, while implementing validation and rigorous testing for a **30%** reduction in project **time complexity** and enhanced efficiency.

Crypto Dashboard
AlmaBetter Verified Project ↗
11/2022 - 12/2022   *Bangalore(Remote)*
Tags: Agile, Testing Efficiency, Responsive UI/UX, CoinGecko API

◇ Implemented **agile methodology** for designing, analyzing, and developing the front-end project. The entire project was planned out as two sprints of **2 weeks each**.

◇ A **user-friendly** dashboard that provides visualization of **real-time** cryptocurrency data. Helped users make informed decisions by providing key information such as **market capitalization**, trading volume, and historical price charts.

◇ **React** and **ChartJS-2** are used to implement charts such as Bar charts, Pie charts, etc. By populating data fetched from Coingecko **API**.
